PowerPoint® Educational Course Introduction to Bible Doctrine

Introduction to Bible Doctrine was written as a resource to meet the prerequisite requirements of the author's Textbook on Dispensational Theology: A Textbook on Eschatology in the Twenty-First Century. Supporting Christian foundational truths, the author presents ten traditional doctrines, explaining their context and meaning to the body of Christ—worldwide.

This work is equivalent to a 100 or 200 level college course in Introduction to Biblical Doctrine or Theology, making it useful for local New Testament Churches to use in their adult educational endeavors. Individual Christians will also find this book helpful in summarizing scriptural truths to support Christian faith and practice.

The book is organized around the doctrine of God, Christ, The Holy Spirit, The Scriptures, Humanity, Angels, Salvation, The Church, Heaven and Hell (Good and Evil), and Eschatology.

With local churches in mind, the author has created a 56 slide (908 KB) PowerPoint® course presentation to aid instructors in teaching the subject of Bible doctrine or theology using the author's book as the primary textbook for student use.

PowerPoint® Educational Course Dispensational Theology

Dispensational Theology: A Textbook on Eschatology in the Twenty-First Century was designed around a two-semester course at a 300 or higher secondary education level. It is the author's view that this book could also be used by local churches that operate their own adult education programs. With local churches in mind, the author has created a 100 slide (7 MB) PowerPoint® course presentation to aid instructors in teaching the subject of Eschatology from a dispensational perspective using the author's book as the primary textbook for student use.
